SUMMARY

Senior WordPress Developer with 8+ years of experience building fast, stable websites from Figma designs while eliminating plugin bloat. Also supports agency workflows by handling the WordPress side of marketing integrations, including GoHighLevel forms, tracking scripts, and lead-capture webhooks.

EXPERIENCE

Mid Wordpress Developer
June 2022 - Present

Ripe Concepts Inc.

At Ripe Concept, I created website templates to speed delivery, scoped projects to align with client goals, and handled website development from build to launch.

Mid Wordpress Developer
Jan 2024 - Mar 2024

Loop Web Design

Part-time Web Developer at Loop Web Design, where I develop and debug websites, coordinate with technical support on issues, and focus on optimizing site speed.

Project-base Web Developer & QA
March 2021 - Jan 2022

Jiffi Web Help

At Jiffi, I initially served as a QA, leveraging my web development expertise to provide technical insights, assess website quality, and offer guidance on resolving site issues.

Fullstack Wordpress Web Developer
Sept 2019 - May 2022

Webhead

At Webhead, I handled website development through to deployment, ensuring ongoing functionality and availability. I also collaborated with support teams to keep all tools running smoothly and the website consistently online.

Wordpress Web Developer
March 2017 - Sept 2019

Rocketstack Corp.

At Rockstack, I developed WordPress websites from scratch and using frameworks like Cherry, Genesis, and Thrive Architect. I explored different builders to deliver faster, more efficient website development.

EDUCATION

Bachelor of Science in Information Technology
June 2013 - March 2017

University of Science and Technology of Southern Philippines
